

BOMB MINING TOWN FROM AIR AUTOS TAKE HEAVY WEEK-END TOLL

SEVEN KILLED AND MANY INJURED OVER WEEK-END IN TEXAS

THREE NAVARRO COUNTY PEOPLE IN LIST DEAD FROM AUTO ACCIDENTS

(By The Associated Press.)
Seven persons were killed in Texas Saturday night and Sunday in automobile accidents and it was estimated that nearly a hundred injured persons were being cared for in hospitals or by private physicians.

The dead:
CURTIS LAWRENCE, 22, Dawson.
MARY GRIFFIN, 23, Corsicana.
NELL CHILTON, 23, Luling, killed at Corsicana.
O. G. SILVERTON, 53, Beaumont, killed at Fort Worth.
PETER POPPLER, 22, St. Paul, Minn., killed near El Paso.
D. H. HAYES, 56, Nacogdoches.
BILL TROUT, 23, Borger, killed near Amarillo.

Unidentified young woman, killed at Houston.
Lawrence was killed instantly and Dwight Hill was seriously injured early Sunday when the automobile in which they were riding overturned on the highway between Austin and Chicago. J. J. Keaton and Velma Champion, other occupants of the car, were slightly hurt. All resided at Dawson.

Mary Griffin, 23, and Nell Chilton, 23, died Sunday of injuries suffered Saturday night when the automobile in which they were riding with Ollie Elnice and A. L. Elkins collided with another car at a street intersection in Corsicana and turned over several times. The two young women were badly bruised.

Killed At Crossing.
Silverton, a resident of Beaumont, was killed Sunday when the coupe in which he and his wife were traveling was demolished in a collision with a Fort Worth-Dallas limited interurban at a grade crossing in the outskirts of Fort Worth. Mrs. Silverton suffered only minor hurts.

Peter Poppler, 22, St. Paul, Minn., died Sunday in an El Paso hospital of injuries suffered when he was thrown from his motorcycle near Las Cruces, N. M.

D. H. Hayes was killed Saturday night when a passing automobile struck him and collided with a car parked by the roadside near Nacogdoches. Ernest Arrant, Curtis Grant, Garrett Holcomb and Ezell Jones, all of Alto, occupants of the car which struck Hayes, were seriously hurt but were expected to recover.

One Dead, Four Hurt.
Bill Trout, 23, old field worker of Borger, was killed and Jess Har-

SHADOW AL SMITH LOOMS PRIMARIES IN THREE STATES

SUCCESSOR TO HEFLIN TO BE NAMED IN ALABAMA; AR- KANSAS, NEBRASKA VOTES

WASHINGTON, Aug. 11.—(AP)—The shadow of Alfred E. Smith, 1928 Democratic presidential candidate, will loom large over three of the four state primaries to be held Tuesday of this week.

Voters of Alabama, Arkansas and Nebraska will be reminded of the issues of two years ago brought back to them indirectly while in the fourth state where ballots are to be cast prohibition is to figure largely in the vote.

Alabama Democrats are to choose a successor to Senator J. Thomas Heflin, ousted from this year's party primary because he failed to support the Democratic presidential candidate two years ago. Heflin, however, has conducted a vigorous campaign for reelection as an independent and will be the favorite opponent of the victor in the Democratic primary. John H. Bankhead of Jasper and Frederick I. Thompson Mobile will be the Democratic senatorial nominees.

OFFICIAL CANVASS JULY PRIMARY VOTE SHOWS NEW RECORD WAS SET FOR STATE

DALLAS, Aug. 11.—(AP)—The State Democratic Executive committee, meeting here today, announced that the vote cast for governor in the July 26 primary totaled 833,442, setting a new record by more than 12,000 votes. D. W. Wilcox of Georgetown, chairman of the committee, said all records on obtaining official returns had been broken with Secretary Albert Sidney Johnson of Dallas obtaining a certified copy of returns from every county chairman in the state.

Attendance at the meeting was small, even with the proxies representing absent committeemen. Canvassing of the election returns was the only business.

Wilcox called the committee's attention to the fact that it would have to convene at Galveston on September 8, the day before the

State convention, to prepare the temporary roll of delegates to the convention and to canvass the returns of the run-off primary. So he held August 23.

Run-offs will be necessary in six major state races and in the other six, the candidates who received majorities were declared the official Democratic nominees. Runoffs will be held in the races for governor, lieutenant governor, attorney general, railroad commissioner, treasurer and commissioner of agriculture.

Official returns in the governor's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the lieutenant governor's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the attorney general's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the railroad commissioner's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the treasurer's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the commissioner of agriculture's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the lieutenant governor's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the attorney general's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the railroad commissioner's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the treasurer's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the commissioner of agriculture's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the lieutenant governor's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the attorney general's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the railroad commissioner's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the treasurer's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the commissioner of agriculture's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

Official returns in the lieutenant governor's race were announced as follows: Mrs. Miriam A. Ferguson, 242,959; Ross S. Sterling, 170,754; Clint C. Smith, 138,534; Thomas B. Love, 87,068; James Young, 73,385; Harry Miller, 54,652; Earle E. Mayfield, 54,459; C. C. Moody, 4,482; Paul Loven, 2,724; Frank Putnam, 2,365; and C. E. Walker, 1,760.

FIVE BURNED TO DEATH TENNESSEE; FIVE DEAD CORPUS

STEEPLEJACKS KILLED IN FALL FROM INSIDE CHIM- NEY AT ST. LOUIS

JOHNSON CITY, Tenn., Aug. 11.—(AP)—Five persons were burned to death and two others suffered serious injuries in a fire that destroyed a six room cottage located in an amusement park near here early today.

The dead are Mrs. Hugh Lee Witt, 25, her two children, Hugh Lee Witt, Jr., 2, and Marie Witt, 3; Iva Witt, 16, her brother-in-law and Paul Reeder, 25, an employee at the park.

Hugh Lee Witt, 26, and his father, Charles Witt, 50, were taken to a hospital in a serious condition.

Charles Witt had concessions at the park, known as Cox's Lake, and Hugh Lee Witt had charge of fireworks displays. Officers investigated to determine whether fireworks had been stored in the cottage.

COOLER WEATHER CAUSES NATION TO REJOICE MONDAY

TEN TO TWENTY DEGREE DROPS REPORTED OVER MANY STATES

CHICAGO, Aug. 11.—(AP)—It finally cooled off.

After weeks and weeks of the sweating, stifling heat, the nation laid aside its fan, breathed deeply and smiled once more.

Week-end showers and cooler breezes brought temperature drop of 10 and even 20 degrees over most of the country.

Although in most instances the precipitation was not heavy enough to bring the drought-stricken crops out of danger, at least no more damage was done.

Only in the southern tier of states were there temperature readings yesterday that approximated those of a few days ago.

Of the dozens of stations reporting to the Chicago headquarters of the weather bureau, only two had temperatures of over 100 degrees—they were Little Rock and Oklahoma City, both 102.

Other southern points to report high readings were Shreveport, La., and Fort Worth, Texas, 98; Raleigh, N. C., Abilene, Texas, 98; San Antonio, Texas, 96; Charleston, S. C., Vicksburg, Miss., and Birmingham, Ala., 94.

Parts of Kansas, Nebraska, Oklahoma and western Nebraska had temperatures of over 100 degrees, Dodge City and Wichita recording 98 degrees and Concordia 96, but the temperature

BRITISH RETAIN PESHAWAR AGAINST AFRIDI ATTACKS

TELEGRAPH LINES ARE CUT; INTEREST IN EXPEDITION IS WANING

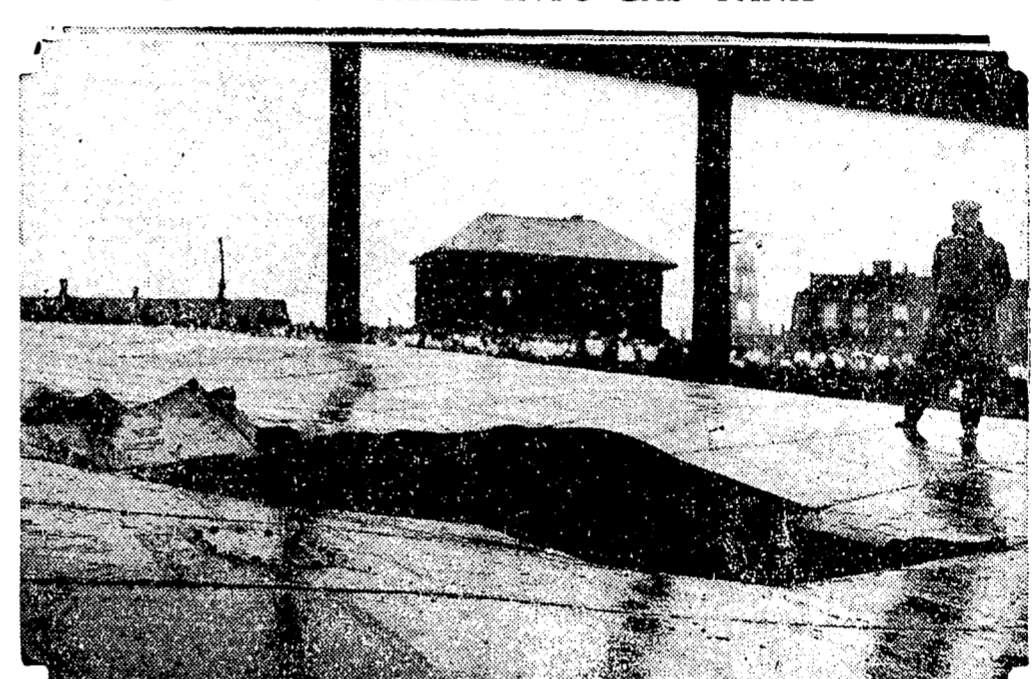

SIMLA, India, Aug. 11.—(AP)—Peshawar, northwestern frontier key city, and far flung outpost of the British Empire, remained inviolate today after two days' efforts by 10,000 raiding Afridi tribesmen to capture it.

Although a mass attack by the Afridis from beyond the Afghan border has never developed, British defenders, many of them native Indian troops, have been back the tribesmen in several important sallies.

At least 51 Indian troops have been killed in one action in the thickly wooded orchards of Hazarkhan. Heavy losses have been inflicted upon the raiders, who cut telegraph lines east and south of the city, making communication with the outside world difficult.

Only sparse dispatches came through yesterday. The six troops were dispatched to have been ambushed in the orchard and killed by a first volley. Others patrolling the orchard were unhurt but returned the fire of their assailants, who then made for the military support, where cavalry, artillery, and airplanes combined against them in a counter attack. The tribesmen were beaten back.

PLANE CRASHES INTO GAS TANK

Top of huge gas tank in Chicago which was ripped open when an airplane, believed to have been struck by lightning, crashed through it. The pilot and two women passengers lost their lives. The wreckage of the plane lay in forty feet of water in the bottom of tank. The bodies were recovered Sunday.

Local Police Commissioner Thief Victim

Corsicana officers were still engaged Monday in scouring the state for some trace of the person or persons who took Police Commissioner W. P. Brown's motorcycle Saturday night. No trace has been found of the stolen vehicle about noon.

The motor was taken from its parking place near the commissioner's drug store Saturday night, where it was used for delivery service. Two reports were received later of seeing a motorcycle and motor answering its description, heading north toward the Ellis county line.

Telephone calls were made to Dallas and Fort Worth asking the assistance of the police in those cities.

The motor was practically new having been in service only a few days.

POLICE UNABLE TO FIND CONFEDERATE OF BANK BLASTER

FORT WORTH, Aug. 11.—(AP)—Whether Nathan M. Martin, 30, who caused his own and another's death by exploding a vial of nitroglycerin in the Stockyards National Bank Saturday during an attempted robbery, had confederates remained a mystery to day.

Police found Martin's automobile yesterday, parked nearly three miles from the bank. The second doors were locked. The bomber's bank book and a note to his widow were inside. He had written, "here is all the money I have." The bank book was \$425 and the book showed a balance of \$157.

Entering the bank, Martin walked to the desk of W. L. Pier, president, and demanded \$10,000. He said he was desperate, was carrying a vial of nitroglycerin and would blow up the institution unless he received the money.

Pier walked into a cage apparently to get the money, and signalled for police. Fred L. Pelton, vice president, talked to the intruder. When two policemen entered hurriedly, Martin hurled the vial to the floor. The interior of the bank was shattered and Martin and Pelton were killed.

Small Boy Set Fire
Large Lumber Yard

DUNCAN, Okla., Aug. 11.—(AP)—Eldores Taylor, nine-year-old boy who set a \$75,000 lumber yard fire here Saturday night, today was committed by County Judge J. W. Scott to the boys' training school at Pauls Valley to serve until he is of age.

Eldores said he "was after chain stores," but gave no reason. Four other fires he set were in the rear of chain stores, but failed to gain headway. The only damage occurring at the Long-Bell lumber yard.

Cloudburst Maroons Colorado Tourists

LYONS, Colo., Aug. 11.—(AP)—A cloudburst transformed the north and south St. Vrain rivers into raging floods yesterday imperiling motorists in mountain canyons west of here. The streams along arteries of travel to Estes national park. Hundreds of motorists were marooned for hours.

THREE KILLED IN UNUSUAL AIRPLANE CRASH AT CHICAGO

CHICAGO, Aug. 11.—(AP)—An inquiry into Chicago's most unusual airport accident has been opened with the prospect that the city's air ordinance may be changed.

Major Reed Landis, deputy coroner in charge of aviation cases, have summoned a jury of aviators and airplane technicians to investigate the deaths of two young women and a pilot who were killed late Saturday when a cabin monoplane fell into a north side gas tank.

The young women, sisters, were Mary Laws, 24, and Eugenia Laws, 22. The pilot, whom the sisters engaged for a ride over the city, was Orville Suchy.

Soon after the plane left the municipal airport, a severe electrical storm broke. The plane was wallied in by dark clouds and lightning. Witnesses said after a severe crack of lightning, the wings of the ship collapsed and it plunged from a height of 1,000 feet into a storage tank of the People's Gas, Light and Coke Co.

The impact cleaved the steel roof and bottom of the gas chamber and the plane dived into a 40-foot reservoir beneath, filled with water. The ship finally rested in the murk at the base of the tank. A diver aided by police rescued the bodies Sunday.

All the known witnesses have been summoned to appear today at the inquiry. Coroner Landis indicated that a change in the air ordinance regulating flights over the city would be sought.

Long Heralded
Crucial Chinese
Battle At Hand

SHANGHAI, Aug. 11.—(AP)—The long-heralded crucial battle between nationalist and rebel armies for the rich province of Shantung appeared to be under way today with the belligerent forces advancing in conflict on several fronts.

Nationalist military sources said their attacking forces were continuing to advance upon Tsinan, provincial capital. Capture of Tsinan was said by nationalists to be a matter of a few days.

Reports from the northern rebels said their general, Ken Hei-an, had halted the nationalists with machine gun and artillery fire near Talian and Feicheng and had inflicted heavy losses upon government forces.

Similar conflicting claims of the tide of battle in Honan province were made by the opposing sides. Feng Yulsiang, northern general, claimed decisive victories along the Huaihow-Tungkwang railway. He also claimed he captured of Kwethen and Mamutai, important Honan cities, and the seizure of large supplies of military goods and foodstuffs.

The Chinese press here said the combined casualties of nationalist and northern rebel forces in Shantung last week totaled 100,000 but this was considered excessive. It was believed, however, that thousands of soldiers had fallen.

Goshas to Have Soup On Menu As Judge Takes Hand

PITTSBURGH, Aug. 11.—(AP)—The Goshas are going to have soup today and it won't be because Tony tosses likes soup, nor because Mrs. Gosh doesn't, but because the law has said they must.

It's over two weeks since Mr. Gosh had his teeth pulled, and every day Mrs. Gosh has had meat without soup. The whole thing came out when the Goshes were taken before a magistrate for throwing furniture at each other.

So the magistrate re-arranged the Gosh menu, ordering the Mrs. cook soup and plenty of it.

FIGHTING BREAKS OUT AGAIN NEAR MEXICAN BORDER

POSSIBLE SEEKING SLAYER CUSTOMER OFFICER KILLS ONE AND WOUNDS ANOTHER

LAFERIA, Aug. 11.—(AP)—A fresh outbreak of gun fighting between border patrolmen and liquor smugglers has accounted for the death of an officer, a Mexican and the probable fatal wounding of another.

Margarito Rodriguez, 20, was shot to death and his brother Victor, 23, wounded by a sheriff's posse yesterday searching for the slayers of Bart Ellis, customs inspector slain Saturday night by seven hoodlums in a surprise attack on a dance hall at Hargill, Hidalgo county.

The posse encountered the Mexicans in a cotton field near La Feria. Rodriguez was killed and his brother wounded in an exchange of shots. The officers said they were fired upon first by the Mexicans.

At an inquest into Rodriguez's death, a verdict was returned that "death was due to gunshot wounds inflicted in a gunfight with officers of the law."

WAIT FOR JUDGE TO CALL GRAND JURY AMARILLO

IF TRIAL CAN BE COMPLETED THIS WEEK, SESSION MAY BE HELD WEDNESDAY

AMARILLO, Aug. 11.—(AP)—The trial of A. D. Payne, Amarillo attorney, charged with murder in connection with the death of his wife, blown to her death by a dynamite blast, will await the regular term of district court which opens August 25.

After a conference with Judge Henry Bishop today E. W. Thompson, district attorney, announced a special grand jury would not be convened to consider the case.

He said a heavy backlog at Canyon with numerous criminal cases at for next week would prevent the extra-legal term of court.

Thompson said Payne should wait for the regular term of court.

(Continued on Page 5.)

AERIAL ATTACK ON KENTUCKY MINING CENTER ON MONDAY

BOMBS FAILED CAUSE LOSS OF LIFE OR PROPERTY; MUCH EXCITEMENT

PROVINCE, Ky., Aug. 11.—(AP)—An airplane dropped bombs today into this coal mining section torn by labor troubles for several months.

The bombs, estimated at nine in number, created intense excitement but injured no one and did no property damage.

The machine, containing two men and described as an orange colored monoplane, appeared about 6 a. m. It approached Providence at about 2,000 feet, coming from the direction of Illinois. The first bomb struck near Clay City, a few miles north of here. Then the machine dived towards Providence and released two bombs. Columns of smoke and dust rose from a field.

The plane circled the town and came back, dropping lower as it came on. A bomb fell near the entrance to the Reuckman mine entrance but failed to explode. Two more were dropped near the Meador, Young and Holt mine but only two exploded. The explosions of the bombs could be heard for miles and threw the town into an uproar.

The machine appeared about the time miners were going to work. The bombs which failed to explode were made of dynamite wrapped in adhesive tape with fuses attached. The aerial attack followed several explosions of dynamite near the Diamond Mine company's plant and that of the Meador, Holt & Young company.

To Ask for Troops.
County officials wired officials at Harrisburg, Illinois, and other Southern Illinois towns to be on the lookout for the plane.

It also was indicated another appeal would be made to Governor Sangre for more troops. The governor has refused to send them, stating he believed detectives could do more to break up violence than troops.

The mines in this section were closed down April 1 because of disagreements over wages and working conditions and while a vote was announced as overwhelmingly in favor of a strike, it was never authorized by the United Mine Workers of America. In recent weeks most of the mines have been reopened and announced they were proceeding at almost normal rate of production.

Dynamiting and other forms of violence followed and 98 men have been enjoined in federal court against interference with the mines.

ENDURANCE FLYERS MOVE STEADILY TO NEW RECORD IN AIR

TWO FLYERS START ON HOP FROM TACOMA TO TOKYO BY EASY STAGES

ST. LOUIS, Aug. 11.—(AP)—Less than fifty hours separated Donald Jackson and Forest O'Brien from a new world's endurance refueling flight record as they began their fourth week aloft here today.

At 7:11 a. m. (C.S.T.) Jackson and O'Brien had been in the air 504 hours and their motor was running smoothly. If they are still up Wednesday they will pass the record of 554 hours set by Hunter brothers at Chicago last month.

Tacoma-Tokyo Flight
Vance Wiley, C. Aug. 11.—(AP)—Bob Wark and Eddie Brown, Tacoma to Tokyo fliers, who were forced down here yesterday en route to White Horse, Yukon territory, planned to resume their aerial trip from Ladder airport here today.

The fliers took off at 11:33 a. m. (P.S.T.) Sunday from Tacoma field, but air in the gas lines of their big Fokker biplane, "Pacific Era" forced them to land at Vancouver airport on Lulu Island about 2 p. m.

Vancouver is approximately 150 miles from Tacoma by air.

They expected a take off for White Horse, approximately 1,000 miles distant, in time to reach their destination by late afternoon.

The Warks announced itinerary included Fairbanks and Nome, Alaska, and Petropavlovsk, Siberia, en route to Tokyo. The trip outlined from Tacoma is approximately 5,400 miles.

GOVERNORSHIP IS ATTRACTING GREAT AMOUNT INTEREST

CANDIDATES FOR NUMEROUS OTHER OFFICES TO BE SELECTED IN RUNOFF

DALLAS, Aug. 9.—(Sp.)

The democratic primary of July 26 left to be decided in the run-off of Aug. 23 six State races, one congressional race, four State senatorial races and twenty-three races for seats in the lower house of the legislature. One Congressman, one State Senator, two members of District Courts of Civil Appeals and fourteen members of the lower house of the Legislature were defeated for re-nomination.

Representative J. C. Box in the Second Congressional District; Justice William Hodges in the sixth and Justice J. A. Stanford in the Tenth Civil Appellate Districts; State Senator Julien C. Hyer, Twenty-Eighth District, failed of re-nomination. Members of the lower house of the Legislature defeated B. S. McGroove, Eighth District; J. T. Walters, Thirteenth; W. O. Williams, Fourteenth; J. W. Kinnear, Sixteenth; John M. Ackerman, Twenty-First; A. S. Johnson, Thirty-Second; Joe E. Barker, Thirty-Third; R. K. Keeton, Forty-First; James Finlay Ninety-Third; A. E. Harding, 101; O. F. Chastain, 106th; J. D. Avis 111th.

Many Races Divided. Many of the legislative races were decided by narrow margins and it is possible that the results in a half dozen cases may be upset by official returns. The results indicate that the Republican party is in a position to win in more than 150 of the 253 counties. Returns from the Republican primary were inconclusive as regards State, State senatorial and congressional races. The Republican headquarters in Dallas estimates that primaries were held in more than 150 of the 253 counties. The bureau received returns directly from fifty-four counties and indirectly from thirty-seven others making ninety-one altogether. A number of counties cast fewer than ten votes. In some counties an official was held in only one precinct.

Congressional Races. In the three congressional races Wurzbach led, 889 to 196 in District 14; Carlos G. Watson, 283 to 183 and 32, in District 15; Watson, 150 to 138, in the Sixteenth. Only one county reported in the later district. The official count will be necessary to settle these, with the prospect that Wurzbach will again win in the district.

State Senator. In the contest for State Senator, that in District 14, where returns were received from one county only, giving George S. Plants 17 and Carl Worsham 34. In the following contests where no name is given for an office, it is the name of the nominee; where two names are given, they will go in the run-off. An asterisk denotes incumbents. Numbers indicate district.

DEMOCRATIC State Offices. United States Senator—Morris Sheppard of Bowie county. Governor—Mrs. Miriam A. Ferguson of Harris County. R. S. Sterling of Harris County. Lieutenant Governor—Edgar Witt of McLennan County. Sterling P. Strong of Dallas County. Attorney General—Robert Lee Beard of Webb County. James V. Allred of Wichita County. Comptroller—George H. Sheppard of Nolan County. State Treasurer—John E. Davis of Dallas County. Harry Lockhart of Travis County. Superintendent of Public Instruction—S. M. N. Marrs of Travis County. Commissioner of Agriculture—E. McDonald of Ellis County. A. E. McDonald of Throckmorton County. Land Commissioner—J. H. Walker of Hill County. Railroad Commissioner—Pat M. Neff of McLennan County. W. Gregory Hatcher of Dallas County. Chief Justice of the Supreme Court—C. M. Cureton of Bosque County. Judge of the Court of Criminal Appeals—O. S. Lattimore of Travis County.

Court of Civil Appeals.

1. C. E. Lane*, Houston.

2. Irbly Dunklin*, Fort Worth.

3. James W. McClelland*, Austin.

4. W. S. Fly*, San Antonio.

5. B. P. Loney*, Dallas.

Observer Discovers Why River Held Own

NEWCASTLE, Pa., Aug. 9.—(P)—

They know now why the Shannan-gu river here has not fallen while others streams in the vicinity have gone almost dry. B. F. Johnston, U. S. weather observer, admitted he was puzzled. But when his observatory yesterday disclosed the river actually rising he decided on a tour of inspection.

An hour later he found a number of small boys enjoying a swimming pool they had constructed just below the observation station.

NEFF CHALLENGES HATCHER TO PROVE CHARGES OR QUIT

SAYS IF CHARGES PROVEN HE (NEFF) WILL QUIT THE RACE FOR STATE OFFICE

AUSTIN, Aug. 9.—(P)—Pat M.

Neff, chairman of the state railroad commission, today offered to withdraw from the runoff race for railroad commissioner, if Gregory Hatcher, his opponent, could prove charges he made against Neff with the alternative that Hatcher withdraw unless he could prove the charges.

Hatcher made the charges, Neff said in a speech at Alvarado. He referred particularly to a purported charge by Hatcher that while Neff was chairman of the commission the Southern Pacific railway had taken over the Greyhound bus lines.

"If Mr. Hatcher can show that I either officially or unofficially, directly or indirectly, voted for, counseled with, or had any connection with a kind of a transaction between the Southern Pacific and the Greyhound company, I will withdraw from the race," Neff's statement said.

"If he cannot show the truthfulness of his charges, he should voluntarily withdraw."

Neff also challenged several other statements he attributed to Hatcher, most of which were connected with railroads taking over bus lines.

He denied that during his chairmanship more than four-fifths of all the bus lines were controlled by railroads. He said that there are approximately 200 bus operators independent of railroad affiliations, operating over 23,000 miles of highways, while railroad

GREER IS WINNER OVER OWEN IN SIX COUNTY DISTRICT

Complete unofficial returns from the sixth state senatorial district show that Julian P. Greer, Henderson county, present incumbent, defeated R. R. Owen of Navarro, by a majority of 4,212 votes in the July 26 primary election, securing a total of 15,617 votes as compared with 11,405 votes for Owen. It was announced here late Friday.

Owen carried Navarro county by a comfortable majority while Greer was ahead in the other four counties in the district.

Following are the votes for the respective candidates by counties: County Greer Owen Navarro 2,054 5,676 Henderson 3,809 1,061 Kaufman 3,660 1,292 Freestone 1,830 1,378 Anderson 4,204 1,998

Total 15,617 11,405

Hubbard Hot Well

Property Leased

HUBBARD, Aug. 9.—The Hubbard Hot Well company properties have been leased to J. L. Kennedy of Waco for one year, with the option to purchase same. The well will be cleaned out and restored to its normal flow, if possible.

The well's flow recently diminished and it is expected it will be cleaned and recased.

CONFESSED SLAYER OF WIFE BY BOMB NOW GRAVES DEATH

AMARILLO LAWYER TELLS MANY ATTEMPTS MURDER WIFE THAT WENT AWRY

STINNETT, Aug. 8.—(P)—A. D. Payne, Amarillo attorney, who confessed that it was he who planted the dynamite that blasted the life out of his wife and the mother of his three children, today acknowledged the truthfulness of his sordid statement of murder with his signed confession.

When he stepped back in the presence of Potter and Hutchinson County officers after affixing his name to the long document which told a tale of conjuring at the life of the woman he courted a few years ago while working his way through West Texas State Teachers' college at Canyon, he expressed only one regret.

He said he was sorry that the infernal blast had been perpetrated. Mrs. Payne and maimed his 11-year-old son did not in fact murder the boy that had been given the name of his father and who now does not believe a crime.

Payne seemed remarkably composed, considering the ordeal he had been through, when, at 4 o'clock this morning he sealed the 68-page confession, detailing his attempt on his wife's life before he finally succeeded. Newspaper reporters were present when the climax came.

Officers said the attorney had talked incessantly from 8 a. m. yesterday until 4 a. m. today.

However, apparently realizing he had at last made a clean breast of the thing that had been gnawing at his heart many days, his body quivered, the pen fell from his hands, he buried his face in his arms and slumped over on a cot.

But, again he recovered his composure and braced himself to face newspaper reporters who sought to question him.

His face was pallid, as drawn and haggard as the other when he was confronted by Verona Thompson, his former secretary, whose statement of his interest in her caused the lead that solved the crime of which he accused.

"How have the officers treated you since your arrest?" he was asked.

"With utmost consideration," he replied sharply. "They have been gentlemanly and I have no complaint."

He said he felt little relief since his confession.

"I feel just like I did when I was planning it," he said.

He said he realized he had not committed the "perfect crime" but he did not expect to be apprehended so soon.

He said he felt little relief since his confession.

"I feel just like I did when I was planning it," he said.

He said he realized he had not committed the "perfect crime" but he did not expect to be apprehended so soon.

Corsicanan Granted Patent on Pruning And Topping Saws

WASHINGTON, D. C., Aug. 9.—(P)—The United States patent office has just granted to Arthur A. Swick, of Corsicana, a patent on pruning and topping saws.

According to Clarence O'Brien, local patent attorney, Mr. Swick's invention provides a device with a saw blade that can be adjusted for pruning and topping work of either light or heavy character. The saw blade is arranged so that it may be adjusted and detachably mounted at the end of an extension handle.

exchange greetings. They stared at each other and both were pale. Suddenly the two began to cry.

A. D. Payne launched into an explanation of his crime to his brother and insisted on telling him the most important details immediately.

Payne's confession revealed that he first tried to kill his wife by administering poison in a tonic, then he resorted to an attempt at asphyxiation. On that occasion the gas was turned on with all the windows and doors of their room closed, he said, but after five hours and fifteen minutes Mrs. Payne awoke.

Mrs. Payne complained of headache and he abandoned the plan. The third scheme he termed a suicide pact since, he said, it afforded no escape for himself. He was to drive to a lake near Amarillo. The fourth attempt came when he placed a shot gun in a closet arranged so he would discharge when his wife opened the door. But Mrs. Payne escaped with minor hurts.

He remarked that his wife had never suspected him at any time with reference to the shot gun attempt.

STINNETT, Aug. 8.—(P)—Craving only a speedy death as punishment for what he himself termed "the most terrible crime ever committed," A. D. Payne, Amarillo attorney, today had practically closed his recital of how he planted a dynamite charge in his automobile which demolished the car, killed his wife and maimed their son, A. D. Payne, Jr., 10.

The man who once posed in Amarillo as a "model husband," yesterday had called himself the "meanest man in the world," during his all-day session with officers dictating his confession to a court reporter.

Mystery had cloaked the identity of the person who planted the bomb in Payne's automobile which exploded June 27, as Mrs. Payne was driving to town with her son. Last week, Payne called at the office of Gene Howe, editor of the Amarillo News-Globe, and asked that newspaper men conduct an inquiry, since police authorities had made no progress in apprehending the slayer.

Howe telegraphed the Kansas City Star and asked that E. B. MacDonald be assigned to the case. Howe and MacDonald began their investigation Monday.

MacDonald immediately questioned Payne as to his relations with women. Payne described the attractions of various women who had worked for him. When he mentioned Mrs. Verona Thompson, he said she was "too unattractive" for him.

MacDonald went at once to the woman's home. She confessed to a love affair with Payne.

When MacDonald and MacDonald presented the evidence they had gathered to District Attorney E. W. Thompson.

Payne was arrested and charged with murder. The Thompson woman was detained as a material witness.

Agreed to Confess Wednesday, Payne agreed to make a confession and began to dictate this yesterday spending the entire day cloistered with officers in the courthouse here.

Becoming more cheerful hourly, as though freeing himself from a demon, the 38-year-old attorney, tall, thin, and somewhat stooped, never faltered in his recital except during the afternoon, when visited by his brother, Sid Payne, of Tulsa, Tulsa.

When Sid Payne entered the courthouse, he had seemed to entertain doubts as to his brother's guilt, but when he emerged from the room where the accused attorney was dictating his confession, his face was haggard and he appeared near a nervous collapse.

"Red" Burton, deputy sheriff of Hutchinson county, who sat in the room with Payne during most of the day and night, said the attorney frequently smiled and joked and was sarcastic most of the time, but when the dynamiting itself was mentioned, he would begin to cry.

Children Refuse Believe The boy, A. D. Payne, Jr., who was maimed by the explosion that killed Mrs. Payne, learned yesterday for the first time of the accusation against his father and appeared greatly agitated. He refused to believe the accusation.

Ladell, 13, eldest of the Payne children, continued to maintain faith in her father's innocence, saying, "I would not believe it, even if daddy told me it was true." Bobbie Jean, 9, had not been told of the charge.

Payne's confession, which he had read the part of the statement transcribed, the attorney related that he first tried unsuccessfully to poison his wife with morphine, mixed in a tonic she was taking; then he tried asphyxiation with gas in an attempted plan to kill her and commit suicide.

At another time, he related that he planned to drown her in Bishop's Lake, near Amarillo; at another, he left a shotgun in a clothes closet so fixed that when his wife opened the door, the gun would discharge. She escaped this time by locking the door.

Planted Dynamite In Car Then, the officers said Payne related, he planted three sticks of dynamite inside the upholstery of the driver's seat, in his coupe, placed a sack of grain in the rear compartment to force the blast forward, and arranged a fuse several feet long which was so driven from the garage, a string attached to the fuse would pull it in contact with the flame of a small alcohol lamp he had fitted into the automobile compartment.

The first dynamite attempt was the day before the fatal blast on June 27, he stated, according to officers. When his wife and daughter arrived safely at his office, he was frightened and rushed down to the street and snuffed out the torch.

On June 27 it was agreed that the oldest daughter was to remain at home and cook the lunch.

FUNERAL SERVICES AT RICE SATURDAY FOR TUPELO WOMAN

Funeral services for Mrs. Jostle Mitchell, aged 22 years, wife of Elias Mitchell of the Tupelo community, who died in the Navarro clinic at an early hour Friday morning after a short illness, were held in the Rice Baptist church Saturday afternoon at 4 o'clock with interment in the Rice cemetery. The funeral services were conducted by Rev. W. H. Day, assisted by Revs. Henry and Sam Rice.

Surviving are her husband, parents, Mr. and Mrs. J. D. Burdine, Tupelo; and one sister, Mrs. Alvie Jones, Rice.

Sam S. Mitchell, Joe B. Meadows, Nacion Williams, Claude McWitt, Jack McNutt, Henry Bowden, Hubert Bowden, R. M. Bowden, Max Bowden, all of Rice.

The funeral was directed by the Corley-McMahon Funeral Home.

Payne took the younger daughter with him and walked to town.

Finally Successful Mrs. Payne and her son started from home in the car intending to shop in preparation for leaving on a vacation trip. They had driven seven blocks when the last occurred which strewn wreckage of the car for blocks and maimed the boy. The officers said Payne stated he had calculated the car would go seven blocks before the dynamite charge would set off.

Officers said he related that his motive was to prevent his wife from learning of his relations with the Thompson woman, but his son's death and the boy's disfigurement would grow up to be like him, and after he had arranged his business affairs, to commit suicide so his daughters would benefit from his insurance. The two girls he described as being "a pure and good and perfect as their mother."

According to officers, he declared he "lied" to his former stenographer when he told her he planned to get a divorce and marry her, although he referred to her as the sweetest woman in the world and said she reminded him of a former sweetheart.

Expresses Concern for Children The accused attorney expressed concern, Burton said, over the future welfare of his three children, especially the two girls, and said he "greatly sorrowed" that the boy escaped death from the explosion and was left alive and crippled.

Officers said Payne appeared pallid and shaken by the outpouring of his heart, although he talked freely and seemed to feel no sense of crime. The probability appeared that a preliminary hearing would be held Monday at Amarillo.

Stands By Daughter AMARILLO, Aug. 8.—(P)—H. V. Thompson of Portales, N. Mex., father of Verona Thompson, former secretary to A. D. Payne, charged the murder in connection with the death of his wife, arrived here today. Mrs. Thompson's statement relative to her relations with Payne was given to officers.

"I have come to stand by my daughter," Thompson announced. He brought with him letters attesting her good reputation in her home town, signed by church members, bankers, the superintendent of schools and State Senator R. G. Bryant.

He do not think my daughter intentionally wrong and I do not have any idea of deserting her now," he said. "I know she has many friends in Portales and I believe she has here. She needs her parents now and we are going to stand by her."

No Special Grand Jury AMARILLO, Aug. 8.—(P)—In spite of the plea of A. D. Payne, Amarillo attorney, self-confessed designer of the plot that killed his wife with a blast of dynamite, that his punishment be expedited, it was likely no special grand jury would be convened to consider his case.

Edward W. Thomerson, district attorney, today said the case would take its regular course in the courts. He said the Potter county grand jury would convene for the fall term on August 25. It is possible Payne could be indicted that day or the next, and the third day after the indictment was returned, he could go to trial, Thomerson said.

The prosecutor said it was probable the case would not be set until September to allow for the calling of a special venire accordingly.

Thomerson said he did not deem it necessary to ask for a special grand jury in view of the convening of the regular group in about two weeks.

Parents Mrs. Payne Take Two Children AMARILLO, Aug. 8.—(P)—Mr. and Mrs. J. C. Johnson of Lovington, N. M., parents of Mrs. A. D. Payne, blown to her death by her husband's today claimed custody of their three grandchildren, closed the Payne bungalow and left for their home.

"My daughter knew nothing of Payne's alleged financial troubles and never had a thought of committing suicide as he claimed," Johnson said.

"She was a good mother and a kind and loving wife. She treated her husband, loved her children and was innocent of all those things Payne told. He could not say anything that would shake my faith in her."

Bobbie Jean and Ladell Payne left with their grandparents and the boy, A. D. Jr., who will go through life as a cripple-maimed by the blast that killed his mother—will make his home with his uncle, Sidney Payne, of Tulsa.

"We will give the girls a good home. Mr. and Mrs. Johnson said they were glad to have the little girls come away from the car wrecked bungalow and said goodbye to their playmates. They were luging dolls and toys.

Little Ladell Payne stopped to leave a message for her father. "She loves her daddy," the grandfather explained. "Of course the children love him, but they are not old enough to know what it really means."

Wife Was Faithful Payne said in his confession that his wife was "faithful, devoted and companionable."

Describing his efforts to provide a comfortable home for her

Blooming Grove Is Overtaxed By Water Users For Lawns

BLOOMING GROVE, Aug. 8.—(P)—T. M. Swell, mayor of Blooming Grove, has announced that due to the drought, the demand for water for lawns and flowers is so great that the city water department equipment is having difficulty in keeping the supply in the lower.

The mayor has issued an order that in the event that the citizens do not stop using the water for lawns, flowers and other unnecessary purposes, they will be paid on a two-hour day basis. The wells which supply the city water has an abundance of water, but the pumps are being overtaxed, the mtjor said.

CONTRACTS AWARDED FOR FURNISHING FOR SCHOOL BUILDINGS

Contracts for the furniture and equipment of the three new school buildings and two additional room units now under construction here were awarded last Friday afternoon to the Corsicana board of education, after considering the bids Thursday and Friday.

All of the furniture and equipment purchased was selected with its relation to the color scheme of the various rooms and corridors in which it will be used, so that each piece will match perfectly with its surroundings. The furniture and equipment is modern in every detail, and embodies the latest conveniences known to school supplies and equipment manufacturers. Each piece is a genuine built-up article of the finest grade of materials obtainable. It was learned that the present equipment was purchased at a price of approximately 15 per cent cheaper than it could have been bought last year.

Contracts were let to the following firms: Electric fixtures for junior high school, Davidson Electric company, Corsicana. Electric company for Corsicana, Davidson Electric company, Corsicana. Pupil desks, Carl H. Robinson, statisticians for Art desks and stools, Victor Brothers, Houston. Table arm desks, and teachers' desks and chairs, J. E. Chambers company, Waco. Laboratory furniture for the high school, W. M. Wagon Manufacturing company, Austin.

TEXAS COTTON IS PLACED AT NEARLY FIVE MILLION BALES

AUSTIN, Aug. 9.—(P)—Condition of the cotton crop in Texas as of Aug. 1 was estimated today by Carl H. Robinson, statistician for the United States department of agriculture, as 61 per cent of normal. The total crop was estimated at 4,496,000 bales, with the ultimate outcome of the crop depending upon weather conditions for the remainder of the season.

Robinson estimated the yield per acre at 128 pounds. The ten-year average was 65 per cent and 135 pounds per acre.

Fruiting was more advanced on August 1 than the average for the past five years, and soil moisture was less than reported in the last three years.

Reported condition of the cotton crop by crop reporting districts follows:

Northwest, 55 per cent of normal; North Central, 63 per cent; Northeast, 64 per cent; Western, 65 per cent; West Central, 46 per cent; East Central, 64 per cent; Eastern, 50 per cent; Southern, 70 per cent, and Southeastern, 73 per cent.

Production in 1929 was given as 3,940,000 bales and the yield per acre 108 pounds.

Aged Resident of Blooming Grove Is Buried Thursday

BLOOMING GROVE, Aug. 9.—Jesse Franklin McGraw, aged 79 years, died Wednesday morning at 11:30 o'clock and the funeral services were held from the First Baptist church Thursday morning at 10 o'clock.

The funeral services were conducted by Rev. E. L. Jones and Rev. Sikes.

He was a native of Mississippi, but resided in this community since he was a young man.

Surviving are four daughters, Mrs. Alice Frederick, Mrs. Jim Turner, Mrs. Frank Crouch and Mrs. Tom Peterson, and two sons, Lacy McGraw and Horace McGraw, all of this community.

during the 15 years of their married life, he said a change came when his income dropped about three years ago, and it became difficult to maintain their standard of living.

"To relieve the financial stringency I forged a note on my sister, although I maintained payment on the note consistently," Payne said.

"I was hardly able at that time to meet those payments and take care of other obligations that were coming on and I studied seriously at that time of what drastic action I might undertake to work things out some way or other."

"A year ago I dissolved partnership in a law firm and began by the practice of law myself. It was then that I met Verona Thompson, whom I engaged as a stenographer. I began making advances to her and these were at first repaid."

"To relieve the financial difficulties with my wife, but did not intimate to her that I was using illegitimate means to meet my obligations. At various times we considered how seriously a mutual suicide pact."

Relief and better health from frequent and painful urination (diabetes), also piles and constipation. Complete information furnished if you will write or call on J. A. Gentsch, Route 6, Corsicana, near Zions Rest School.

GOVERNORS TO AID HOOVER ORGANIZE DROUGHT RELIEF

FEED FOR LIVESTOCK SEEMS BE GREATEST NEED; MORE INFORMATION SOUGHT

WASHINGTON, Aug. 9.—(P)—The weather bureau, President Hoover and the interstate commerce commission combined today to hearten the sections suffering from a record drought.

The commission authorized an immediate reduction in freight rates in the stricken areas; the weather bureau announced that prospects for rain in the Mid-West by the middle of next week were the best since the dry spell began, the chief executive, the agriculture department and the federal farm board went forward with surveys of the situation in preparation for the governors conference next Thursday.

Of the three, probably the most comforting was the prediction that rain could be expected. It however, was tempered by reminder that other prospects had failed to materialize, or had failed to give the needed relief.

R. H. Weightman, forecaster, said while it was the "best prospect" since the earth began to bake, "that isn't saying much."

A high pressure area is moving eastward toward the drought from the north. This ordinarily means lower temperatures and moisture. But the suffering is by no means confined to the corn and wheat growing belts. The governors of Virginia, Kansas, Kentucky and West Virginia are among the 12 invited here to decide on the most effective ways of relieving the distress.

The interstate commerce commission order was made public after a number of railroads indicated they wished to lower tariffs in the sections hardest hit. The Illinois Central has already agreed that it would allow a cut in shipments of cattle from Reeves, Tennessee, to Baton Rouge, La. It may do this immediately under the sanction given and other railroads can—and are expected—to fall in line.

WASHINGTON, Aug. 9.—(P)—President Hoover today summoned Secretary Hyde and James C. Stone, farm board member, to his office for further conferences on the drought situation.

The agriculture secretary and Mr. Stone planned to leave immediately for the Rapidan river lodge. Stone is expected to return from a survey trip in the middle west and south, particularly in Kentucky, and he will lay the new information before the president.

Secretary Hyde will supplement Stone's reports with any additional advice from the weather bureau as to prospects of relief.

The white house announced today the relief of Governor R. L. of Kansas and Parnell of Arkansas, saying they would be on hand for the conference between the president, government officials and governors of the state affected by the drought.

Additional replies were expected during the day. The white house was keeping in constant touch with the presidential camp.

George Akerson, one of the president's secretaries, remained in Washington to advise the president of the situation by long distance telephone.

It was reiterated at the white house today that the nation's food supply was in no danger and that the shortage in animal feed crops was spotted.

WASHINGTON, Aug. 9.—(P)—President Hoover's organizing talents were concentrated today on the task of welding together an effective campaign for relieving the sufferings of the drought-stricken country.

As the first step the chief executive has called on the governors of the most seriously affected states to meet with him here next Thursday to determine a method of bringing into play all available state and county agencies for relief with the co-operation of various federal branches and the Red Cross.

Meanwhile, at his Virginia fishing camp Mr. Hoover was studying carefully filed reports compiled by the department of agriculture, defining the ascertained damage on maps of the stricken area.

Announcing his decision to call the governors here yesterday, the president said preliminary reports

Hoover Studies Relief at Camp

ORANGE, Va., Aug. 9.—(P)—Reaction occupied a smaller space than usual today in President Hoover's week-end program as he gave his attention to the problems of drought relief.

His mountain camp on the Rapidan river bore signs of the lengthy spell which has afflicted the country. A flower garden which Mrs. Hoover had planted and tended was found today brown and seared.

A large party of guests which accompanied the president and Mrs. Hoover for the week-end devoted itself to the usual pastimes of the camp—horsesback riding and hiking, and many indoor games which have found favor in the community hall.

On the drive from the capital yesterday the group passed stunted and withered corn fields. They observed dry stream beds and little being driven long distances to water.

Tomorrow will be a special day at camp and the president's studies may be put aside for the celebration in fitting, though quiet fashion, Mr. Hoover's fifty-sixth birthday.

He received the first of his presidential duties yesterday. A group of Washington Scouts brought their honorary president a carved Buffalo horn symbolic of pioneer days.

Indicated approximately 1,000,000 farm families were affected, together with live stock amounting to 12 per cent of total animal population of the country. In a lengthy statement surveying the situation, Mr. Hoover said the situation was one to cause a great deal of concern.

Animal Feed Needed. "But it must be borne in mind," he added, "that the drought has mainly affected animal feed, the bulk of the direct human food production of the country being abundantly on hand."

Nevertheless, there will be a great deal of privations among families in the drought areas due to the loss of income and the financial difficulties imposed upon them to carry their animals over the winter.

"The American people will proudly take care of the necessities of their countrymen in time of stress or difficulty. Our first duty is to assure our suffering countrymen that this will be done, their courage and spirit shall be maintained, and our second duty is to assure an effective organization for its consummation."

At the same time the chief executive asked Acting Chairman Bicknell of the Red Cross to have his organization prepare to relieve any human suffering.

Seek Detailed Information. On the basis of the agriculture department survey of conditions as of August 1, the president said the most acute shortage of animal feed crops was in Southeastern Missouri, Northern Arkansas, Southern Illinois, Southern Indiana, Southern Ohio, Kentucky, Northern West Virginia and Northern Virginia, with smaller areas in Montana, Kansas, Iowa and Nebraska. However, a reduction of feed crops in other states also was noted and the president said governors of one or two other states may be asked later to attend.

More detailed information on conditions in the drought areas is expected to arrive from agents of the department of agriculture in time for study Thursday. The livestock affected with placed at 2,250,000 horses and mules, 6,000,000 cattle and 12,000,000 hogs and sheep.

Water Shortage Acute FREDERICK, Md., Aug. 9.—(P)—With the drought in its forty-fourth day, the water shortage here has become so acute that the police are making nightly pa-

Blue Grass Pastures Dead

WASHINGTON, Aug. 9.—(P)—Kentucky's famous blue grass pastures were described today by James C. Stone, farm board vice-chairman, as "burned up."

Stone, who returned yesterday from a visit to Kentucky, likened a walk of a hundred yards through a blue grass pasture to a tramp along a dusty road.

"I have never seen blue grass killed," he said, "but this drought will be the test."

The farm board member said he was shipping 100 head of heavy cattle to market today from his Kentucky farm because he had nothing to feed them.

I. C. Commission Grants Rate Cuts

WASHINGTON, Aug. 9.—(P)—The interstate commerce commission today issued an order authorizing reduced freight rates by railroads in drought stricken areas.

The commission asserted an emergency had been created by the long dry spell and that all interstate carriers were authorized to lower tariffs on live stock, feed and water and upon such other articles of traffic as may be found necessary to and from stricken areas, "without observing the usual requirements as to publication and notice in rate changes. The authorization expires Oct. 31."

The commission had been informed that several railroads, eastern and western, intended to petition for special permission to disregard the usual requirements and make emergency rates.

In view of that and the proposals President Hoover has made, the commission took quick action to give blanket authorization for such action.

By the authorization railroads will be able to make the schedules

effective on one day's filing, will not have to publish full copies for all points of emergency tariff, and will be able to disregard the long and short haul provision of the commerce act and charge less for hauling relief shipments over long distances than they charge for hauling regular shipments over shorter distances on the same line and in the same direction.

The commission authority has been exercised on this emergency basis in a number of instances, the most recent of which related to the Mississippi floods.

It is not believed any protests will be filed against any action of carriers or government to lay down temporary rates that will help regions threatened with disaster even though the temporary relief offered them will cost far less than like service obtained by ordinary shippers during the same period.

The order said "a prolonged period of severe drought exists generally throughout the United States, and that immediate measures of relief are necessary in many sections to avoid loss of livestock and to prevent general suffering."

Among the first railroads to ask authority to reduce rates was the Illinois Central which telegraphed today a petition for immediate action to make a rate of 17 1-2c per hundred pounds on range cattle shipments from Reeves, Tenn., to Baton Rouge, La.

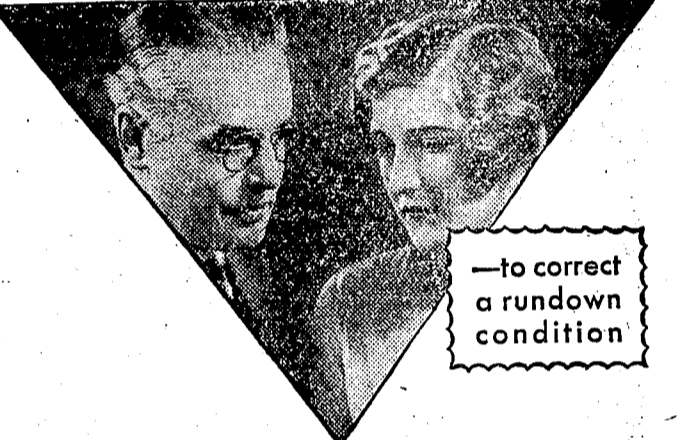

This meant a temporary cut of 50 per cent in the usual charge and would facilitate a movement of stock west to the south where ample cattle feed is available.

The commission's order permits the Illinois Central to make the new schedule effective without notice and without regard to its relation to other rates.

SECRETARIES TEXAS ODD FELLOWS MEET CORSICANA MONDAY

APPROXIMATELY TWO HUNDRED LODGE OFFICIALS AT
SESSION AT HOME

With approximately two hundred in attendance the tenth annual I. O. O. F. State Secretaries Association was held Monday at the Odd Fellows Home. In addition to the secretary delegates in attendance, a number of state officials, including Ray Rector, Stamford, Grand Master Texas, Grand Lodge, and Mrs. M. S. White, Whitehouse, president of the Rebekah Assembly, were present and appeared on the program.

The meeting was opened at 9 o'clock with an hour's entertainment program presented by the children of the lodge. Included in the program were vocal selections and musical numbers by the Girls' Glee Club and instrumental selections by students of the fine arts department of the Home.

The association was called to order by President H. H. Duncan, Kaufman, followed by the invocation pronounced by Rev. C. N. Morton, Strawn.

Roll call of officers and the reading of the minutes of the minutes of the last meeting held on Aug. 12, 1929, at the I. O. O. F. Home were the first items of business.

Ross G. Harris, superintendent of the home, welcomed the visitors to the annual meeting. President Duncan responded to the welcome address.

President's Address. In the annual president's address, discussed the question, "What is the Matter With Odd Fellowship?" declaring that throughout the world, membership was being expended and annual roll growing less. "There is nothing wrong with the principles of Odd Fellowship, they will live forever, as they are based on the teachings of Jesus Christ," the president declared. The loss of membership and interest in the lodge activities can be placed to some extent on the conduct of the secretary's office in the various lodges. The live wire secretary has a multitude of business to attend to, the speaker declared, attending the meetings of the lodge, visit the sick and look after the unfortunate. The secretary must be a man of high ideals, and above all, a law abiding citizen.

The membership of the lodge, as well as the secretary, must talk, act and live the principles of Odd Fellowship if the organization is to prosper, President Duncan stated. When such a lodge is found, it has no troubles with membership, but on the other hand is deluged with applications for membership, the president stated in conclusion.

Grand Master Hard. Ray Rector, Grand Master, discussing "My Ideal of a Secretary's Duty," stated that the secretary would be a man who accepted the position for service, not for remuneration and honor; be on hand at every meeting with all communications of interest to the lodge; have the books ready at all times and records of lodge activity, including minutes of each session written concisely, and clearly. He would also have a complete roll of the membership and financial statement of the lodge which would be available at any time. At the completion of the session, he would be able to turn over to his successor a complete record of activities during his administration, the grand master stated in conclusion.

Mrs. Mae Self, Whitehouse, president of the Rebekah Assembly, commenting on the duties of the secretary, emphasized the importance of the annual meeting and gave several suggestions for carrying on the office of secretary with comparative ease. Mrs. Self stated that the Rebekah Assembly was considering the installation of recreational equipment in the boys dormitory at the Home, and had just completed furnishing several of the girls' rooms.

Endowment Fund. C. A. Wheeler, past grand master, spoke briefly on the subject of establishing an endowment fund to be used by the orphans and old folks' home which would assure their existence in the future.

The plan of the endowment fund, the past master, included the levying of a small assessment each year on the membership, this continuing for a definite period of time until a minimum endowment would have been secured, and would not be subject to a vote for discontinuance until the amount is secured. The speaker urged that the subject of such an endowment be discussed in the various lodges in the state, and some definite decision reached, and being carried before the grand lodge.

The morning session was adjourned after the reading of several announcements concerning the remainder of the day's activities.

The afternoon session was opened with short program presented by the children of the Home, followed by addresses by various state officials on subjects of importance to secretaries.

Husband American Girl Is Suicide
BUDAPEST, Hungary, Aug. 11.—(AP)—A telegram from Andor, Sweden, today advised Julius Kory-Theyge, whose American bride, Dorothy Arents of New York, died from poisoning last month, had killed himself in that city.

Young Kory-Theyge was to have accompanied Mr. and Mrs. George Arents of New York, parents of his bride, to America today.

The girl, who was 23 years old, died in Budapest hospital on July 7. Her husband was a Hungarian engineer, whom she married in America.

The death of the former Miss Arents was investigated by the Budapest police perfect and public prosecutor. Both officials concluded the girl was the victim of a mistake, in which she had taken the poison thinking it a medicine. They decided against a post mortem examination.

S. S. Duncan and wife and children were in Corsicana Friday from Kerens.

Jim Mabry, Jr., and Rev. Joe Everhart were in Corsicana Friday from Kerens.

BLOOMING GROVE MAN SHOT DURING ALTERCATION THERE

Alvin Pullin of Blooming Grove is in the Navarro Clinic suffering from four pistol wounds as a result of an altercation at Blooming Grove at an early hour Sunday morning, and L. W. Thrash, deputy marshal, also of Blooming Grove, is suffering slight knife wounds in the neck.

According to the version of the trouble given by Deputy Sheriff J. M. Westbrook and Jack Floyd who answered the call, the officer was attempting to arrest Pullin when the altercation ensued.

Pullin received wounds from a .32 calibre pistol in both wrists and two shallow abdominal wounds. He is not thought to be in a serious condition. Thrash's wounds are slight.

A formal complaint was filed in Judge S. B. Jordan's court against Thrash for alleged assault with intent to murder, and he was released on his own recognizance to await the action of the Navarro county October grand jury. A complaint for alleged assault was also filed against Pullin.

Pullin is the son of Mr. and Mrs. John Pullin of the Blooming Grove community.

COOLER WEATHER CAUSES NATION TO REJOICE MONDAY

(Continued from Page 5)
In the other central states were near normal for the season. Most of them in the 70s and 80s. Chicago's high for the day was 72, Cleveland's 70 and Minneapolis, 74.

New York Cool.
New Yorkers enjoyed the cool-morning rain in the northwest yesterday in ten days with an early breeze keeping thermometers at 83 and lower. Louisville's maximum was also 83 and Kentucky showers were much cooler. A heavy wind storm injured seven persons and caused extensive property damage in the Louisville vicinity but brought only a little rain.

Showers fell at a few points in the corn belt and over the middle Rocky Mountain region and in New England. Nearly all sections of Iowa received some rain yesterday and in a few localities it was heavy enough to be of real benefit to the crops and pasture.

There were also showers in parts of Missouri and Illinois as well as in scattered sections of the south.

The most unusual bit of weather news came from Plattsburgh, N. Y. Travelers arriving there after driving through the eastern Adirondacks reported extreme rain reported in many localities. Emporia had 7.1 inch of rain.

Hundred Vote Error Found in McKinney Changes Opponents
McKINNEY, Aug. 11.—(AP)—An error of 100 votes in the Anna box in this county, discovered when the returns were canvassed by the commissioners' court, placed Representative S. E. Barnett of Greenville in the runoff for state senator against Senator Joe M. Moore of Greenville. Barnett was indicated Will A. Harris of Point would be Senator Moore's opponent.

Sun want ads bring results.

EDUCATION BOARD STUDY NEEDS IN TEXTBOOKS 1931

RESERVES RIGHT PURCHASE
ISSUE BROWNWOOD BONDS
AT LATER MEETING

AUSTIN, Aug. 11.—(AP)—Members of the state board of education met today to consider what textbooks will be needed for next year.

Representatives of textbook firms conferred with the board on contracts which will be let in October. The contracts may total as high as \$2,000,000, it was said. The board today waived its right to buy \$18,000 worth of school books for construction of a ward school just south of Brownwood, thus enabling sale of the bonds elsewhere. The waiver was made with the understanding that the board might exercise its right to purchase the bonds if they were not purchased before the next meeting, when additional facts concerning construction of the building will be offered.

WIFE MURDERER IS ANXIOUS FOR QUICK TRIAL AT AMARILLO

AMARILLO, Aug. 9.—(AP)—Potter county officials were told the sincerity of A. D. Payne, Amarillo attorney, who confessed to placing a bomb that killed his wife, and asked that his sentence be expedited.

Edward W. Thomerson, district attorney, accompanied by other officers left today for Stinnett, where Payne is held in jail, to ascertain definitely if he would waive the legal privilege he is entitled to under the law and co-operate in the matter of meeting off speedy justice.

Payne had said he would not offer defense. His statement added he would not plead insanity, expressing a desire that his hearing and subsequent punishment be carried to a speedy conclusion.

Expert Afriid marksmen have kept up an incessant sniping which has become a menace to the city. Sympathizers from the surrounding villages are apparently feeding and sheltering the invaders, whose forces are being augmented somewhat by reinforcements arriving from across the Arghian border.

Some late pashawar dispatches stated that the Afriid forces were far from giving up their battle for the city, which would be rich with loot for them, their enthusiasm for the venture was diminishing rapidly in the face of the British defense.

Trial Attacks Repulsed.
PESHAWAR, Aug. 11.—(AP)—Dispatches received today said that an Afghan tribe force attacked Badama post, northwestern frontier province, Saturday but was driven off by a detachment of Kurram militia during the night. Badama post is southeast of Peshawar.

Parachinar is nearly one hundred miles west of Peshawar and the appearance of an Afriid hostile force in this vicinity was taken to indicate a serious extension of the northwestern tribal movement.

Troops Rushed to Mofussil.
KARACHI, India, Aug. 11.—(AP)—British troops have been rushed to the Mofussil districts of Sind to deal with serious lawlessness arising out of communal tension or trouble between Hindus and Moslems.

Recent fighting in the Sind has caused a death toll of at least 20 and injured three hundred or more. Troops were moved into Sukkur August 6 after 12 persons had been killed and 150 injured in one fight alone.

There have been numerous clashes elsewhere, most of the trouble arising from ancient enmity of Hindus and Moslems. In one case the Moslems objected to a Hindu procession passing their Mosque, and a severe riot developed. In another, Hindu and Moslem attempted to use a pond attached to a Hindu temple.

His Only Regret.
He said his only regret was that the dynamite blast that killed Mrs. Payne did not also kill his son, A. D. Payne, Jr., 11, who was named by the explosion.

Payne insisted he had thought of killing his wife before he met Mrs. Verona Thompson, his former secretary, whose statement of an affair with him led to his arrest. The attorney declared that his inability to maintain his wife or living standards had prompted his thoughts of destruction and that he was not influenced by his infatuation for "the other woman."

He remained today in the Ittichinson county jail at Stinnett, where he was taken for questioning and as a precaution against possible mob violence after his arrest.

Man Uses Dynamite To Kill Self and Children Sunday
BURNBAY, B. C., Aug. 11.—(AP)—Placing his three young children in a stump hole, Otto Zellar killed them and himself with a charge of dynamite.

Zellar's wife left him recently because of alleged cruelties. One of the children told a friend several days ago their father intended to kill them.

His wife, who died in an explosion at Amarillo June 27, reaffirmed his expressed intention of pleading guilty today and said he positively would not allow anyone to enter an insanity plea for him.

"If anyone tries to convince the jury that I am insane I will prove that I am sane," A. D. Payne's brother, Sidney, and Amarillo officers were expected here to take the prisoner to Amarillo.

GIANT BRITISH AIRSHIP IN FLIGHT OVER NUMBER EAST CANADIAN CITIES MONDAY

TORONTO, Aug. 11.—(AP)—The British dirigible R-100 flew over Canadian cities today and dipped twice into the United States, crossing the international border at Niagara Falls.

The airship, which flew from England the week before last, had swung at its Montreal mooring most since its arrival while riggers repaired a stabilizing fin torn by storm shortly before it reached its Canadian destination. Last evening it floated up into the air again for a tour over Eastern Canada.

This morning the vessel passed over the government building at Ottawa, and swung around the western tip of Lake Ontario to Niagara Falls. Thousands saw the largest of all dirigibles as she flew at low altitude through a clear sky.

Today's flight served as a test of last week's repairs, and with favorable weather the airship will start back toward the Atlantic some time this week.

Flies Over U. S. City
NIAGARA FALLS, N. Y., Aug. 11.—(AP)—The British dirigible R-100, United States soil today for the first time when it appeared over this city on its tour that was intended to cover Western Ontario. The big dirigible made two visits to this city. It was sighted first at 5:40 a. m., flying low. Circling the city and then following the course of the river and sailing majestically over the cataracts it was seen only by early risers. After cruising for a brief period it sailed back over Canadian soil and disappeared.

The dirigible made its second appearance over the American city several hours later, again flying low. Thousands watched it on its second visit. The great ship traveled slowly and with little noise and finally disappeared in the direction of Lake Ontario.

Seen By Toronto Crowds
TORONTO, Ont., Aug. 11.—(AP)—The British dirigible R-100 arrived over Toronto's downtown district at 8:20 a. m. (E.S.T.) today after traversing Lake Ontario in a northwesterly direction. The mighty vessel flying quite low, skirted the new 32-story building of the Canadian bank of commerce and proceeded to the city hall where a dense crowd watched from the plaza.

SIXTY-FIVE PASSENGERS AND CREW OF STEAMER SAVED AFTER SHIP RUNS AGROUND
ST. JOHNS, N. F., Aug. 11.—(AP)—Sixty-five passengers and the crew of the steamer Caribou were recovering today from the ordeal of a six hour pull in lifeboats in a heavy sea into which they were forced at dawn yesterday when the ship struck a piece of land off the southwest tip of Newfoundland.

All, including nineteen women and several children, were landed safely at Port Aux Basques, their destination when the ship put out from North Sydney, N. S. Eighty men were on board today to salvage 200 sacks of mail and other valuable freight from the wreck.

FOUR SING SING CONVICTS HAILED AS HEROES; SAVED FOUR PEOPLE FROM RIVER

OSSINGING, N. Y., Aug. 11.—(AP)—Four convicts were being hailed as heroes today for their rescue of two men and their wives from drowning in the Hudson river in front of Sing Sing prison.

Three years ago, three young men drowned at almost the same spot while hundreds of convicts looked on helplessly fearing to lend a hand lest they draw forth the wrath of the warden. Today, the guards today picked short-termers Irving Brown, Joseph Oates, Anthony Triano and David Weller to rescue the men and women in the boat.

Weller and Triano jumped into the river while the others stood on the dock, grasping long firemen's hooks. The rowboat, filling rapidly and pushed by Weller and Triano, reached the end of the dock with the gunwales awash. Brown and Oates held it up with their hooks while the four in it scrambled ashore. Then the boat sank.

The prisoners then found they had saved a "cop" J. D. Roosa, chief of police of the New York Central Lines and his wife, and Roosa's brother-in-law, Albert Graff and his wife.

CROP PROSPECTS DECLINED NEARLY SEVEN PER CENT

WASHINGTON, Aug. 11.—(AP)—Crop prospects in the United States were reported today by the department of agriculture to have declined nearly 7 per cent during July as a result of drought and hot weather.

The preliminary estimate of winter wheat production was announced as 597,392,000 bushels compared with 558,000,000 bushels indicated last month and 578,000,000 bushels produced last year. The quality of winter wheat is 3.4 per cent compared with 3.7 per cent last year.

The preliminary estimate of winter wheat production was announced as 597,392,000 bushels compared with 558,000,000 bushels indicated last month and 578,000,000 bushels produced last year. The quality of winter wheat is 3.4 per cent compared with 3.7 per cent last year.

The indicated production of all other crops was placed at 174,932,000 bushels, compared with 193,000,000 bushels indicated last month, and 176,000,000 bushels produced last year.

The indicated production of oats was 1,316,369,000 bushels, compared with 1,320,000,000 bushels indicated last month and 1,234,000,000 bushels produced last year.

TWO DEAD RESULT NITRO EXPLOSION IN BANK SATURDAY

CASHIER AND BANDIT WHO
CARRIED SATCHEL BLOWN
TO PIECES

FORT WORTH, Aug. 9.—(AP)—Fred L. Pelton, vice president and cashier of the Stockyards National Bank, and an unidentified man were killed, several others were injured and the bank was practically wrecked when the strangled dropped a bag containing nitro-glycerin after demanding \$10,000.

L. W. Marshall, assistant cashier, was seriously wounded and at 12:30 o'clock was in the operating room at the hospital. Clifton Magness, 38, was badly cut by flying glass.

The blast occurred shortly before noon. A man carrying a satchel came to the desk of W. L. Pier, president of the bank, and demanded \$10,000.

"I'm desperate," he said, "I want the money quick. There's a pistol on my head and don't care what happens to me. There is nitro-glycerin in this satchel."

He warned Pier not to notify police. While Pelton, whose desk adjoined Pier's, engaged the man in conversation, the bank president went behind the cages and told the tellers to count out \$10,000 in currency. Then he went to a telephone to call Chief of Police Lee. The latter was out of the city and Pier then called the North Side police station, informing them of what was happening and warning them to remain outside the bank and wait for the stranger to go out with the money.

Pier said that while he was talking the explosion occurred. Killed instantly.

Both Pelton and the stranger were killed instantly. The stranger's body was torn to pieces from the waist down and his torso hurled to the ceiling.

All the furniture and fixtures of the bank were scattered as if struck by a tornado although, by a miracle, the remainder of the 30 employees and customers were uninjured. Money and checks were strewn everywhere.

The unidentified man was described as having sandy, red hair. He was said to have been about 5 feet, 8 inches tall and weighed about 160 pounds.

The Magers boy, who is the son of Mr. and Mrs. Clifton Magers, was standing near the bank. Flying glass cut him on the head and body.

Marshall has a badly cut leg. Pelton's body was badly mutilated, the arms and legs having been torn from the torso. He was found lying on Exchange Avenue in the packing house district.

Never Saw Man Before.
Marshall told what he knew of the bombing while he lay on the operating table at the hospital. "I never saw the man before," he said. "I think he wanted \$5,000. At least, that is what I gathered from the conversation I overheard between him and Pier. I was sitting at my desk about six feet away. I saw him take a bag out of his head, was wanted somewhere for something. I didn't hear any more of what was said between the two."

"My telephone rang. It was long distance. I had talked but a minute or so when there was an explosion. There was an upheaval about me and the next thing I knew I was trying to free myself from the wreckage of my desk. The heavy desk top fell on top of me and I couldn't get out at first. I don't know how long I was under the desk until it was a bomb."

Pier Tells of Explosion.
Pier, describing the explosion, said he was seated at his own desk when the man came in and addressed Pelton. He said he did not hear the opening conversation until Pelton turned to him (Pier) and said: "This man is desperate. He wants \$10,000."

Pier said the man then repeated his threat. Pointing to his left hand, in which he carried the satchel, he said, "I have nitro-glycerin in here. If you don't give me the money I'll drop this and blow you all to hell."

Pier attempted first to "stall off" the stranger by saying he did not believe that much money was in the bank at that time. Finally, however, he went behind the cage, called police and then began to count out the money.

Counted Money Slowly
He counted slowly, Pier said, and was about to walk back to his desk when the explosion occurred. The blast was in the vicinity of that corner were twisted and torn apart.

Emergency officers Benson and Lobay, sent on Pier's summons, walked into the bank Benson said he loosened his pistol from the holster. The man saw this, said the officer, took out a two ounce bottle from his satchel and hurled it to the floor.

While Pier was counting the money a few minutes before the explosion the man wrote a note on a deposit slip and found it had a sister in Phoenix, Ariz. "The note was found some time later."

Pelton With Bank Year.
FRED L. PELTON, vice president and cashier of the Stockyards National Bank, killed when a bomb exploded in the bank had been in Fort Worth a little over a year. In 1929, having resigned as cashier of the First National Bank of Alliance, Neb., to accept the Fort Worth place. He was 36 years of age and is survived by his widow and

daughter, who has a wife and three children. The girl had been stabbed to death. Police believed Teseraro killed his wife and daughter and then shot himself.

Funds Placed in Escrow for Road Work in County
At the meeting of the Navarro county commissioners court Monday morning, escrow agreements were ratified and signed for the placing of the money for the payment of the Corsicana-Richland sector of Highway 75 and for the dirt and drainage structures on the Corsicana-Fuller highway between the Three-Way Filling Station and the eastern boundary line of Consolidated Road district No. 1 near Bureka. Several pleas for assistance for persons in need were heard, but no definite action was taken. Claims for the month were allowed except as noted on the claim docket.

E. F. (Mose) Wells, tax assessor advised the commissioners that his office would begin the making of the tax roll for the year as soon as the equalization work had been completed.

The case of a man suffering from pneumonia, who has a wife and two children, was presented to the court. Another man and his wife appeared with reference to the alleged desertion of their daughter who is in the last stage of tuberculosis. Her husband, they said that they had turned in their son-in-law and that he had made bond, but refuses to aid his wife in any manner, and that they overpowered to leave him and go hunt for work. It was intimated that the woman might be placed in the county hospital.

Funds Placed in Escrow
The court placed \$12,525.56 in escrow for the use on the 20-foot pavement from Corsicana to Richland on Highway 75. It was brought out in the discussion that the Federal government was putting up \$100,000 and that the State would refund the Consolidated Road district No. 1 this Fall. At first, it was thought by the local commissioner that the district would have to put up both the State and Federal aid amounts, but the Federal highway department has put up its portion.

Money in the sum of \$1,281 was also placed in an escrow agreement with the State highway department for the dirt and drainage structures on the Corsicana-Fuller highway between the Three-Way Filling Station and the eastern boundary of Consolidated Road district No. 1. This contract was awarded by the State highway commission as was the pavement contract from Corsicana to Richland on Highway 75.

Andrew G. Steele, county superintendent and county commissioner, appeared before the commissioners and his petition asking that the local Legion be allowed meeting quarters in the Navarro county court house was granted. The American Legion will occupy a portion of the large space in the basement directly under the county court room. The Legion will construct a kitchen in the present large room without cost to the county.

The Legion will not be charged any rent by the county.

Bandits Take Payroll.
DAYTON, Ohio, Aug. 9.—(AP)—Forcing F. X. Milligan, superintendent of the H. R. Blagg Construction Company, and C. M. Wadsworth, an employee, to the cut three unskilled robbers seized the company's \$12,000 payroll and escaped here today.

Payroll Car Robbed
KNOXVILLE, Tenn., Aug. 9.—(AP)—A long highway robbery and up the payroll car of the Rockford Knitting Mills near here today and escaped with more than \$1,500 in the company's car.

The car was found later near Maryville.

A posse was organized quickly and gave pursuit.

A Reliable Remedy for the treatment of

Kidney and Bladder AILMENTS

Mr. A. A. Parma, of 404 East Lampasas Street, Ennis, Texas, says that he had suffered with a severe pain over the region of his kidneys, and was troubled with too frequent urinating for more than two years and that at times was unable to walk, and after taking one bottle of

INABINE
the Wonderful Kidney and Bladder and Rheumatic Prescription

that he has been entirely relieved of both ailments, and has had no return of the troubles since, which has been several months.

Full Month's Treatment \$1.50

For sale and guaranteed by Inabine Drug Co., and other druggists.

Man Kills Wife, Daughter; Takes Own Life Also

NEW YORK, Aug. 11.—(AP)—Salvatore Teseraro, his wife Concetta, and their eighteen-year-old daughter, Emilia, were found dead in their Brooklyn apartment today after neighbors had been aroused by shots.

Teseraro was shot through the head and his wife had died from bullet and stab wounds. The girl had been stabbed to death. Police believed Teseraro killed his wife and daughter and then shot himself.

FUNDS PLACED IN ESCROW FOR ROAD WORK IN COUNTY

U. S. GOVERNMENT PUTS UP
ITS PORTION OF HIGHWAY
75 PAVING FUND

At the meeting of the Navarro county commissioners court Monday morning, escrow agreements were ratified and signed for the placing of the money for the payment of the Corsicana-Richland sector of Highway 75 and for the dirt and drainage structures on the Corsicana-Fuller highway between the Three-Way Filling Station and the eastern boundary line of Consolidated Road district No. 1 near Bureka. THE PLAYTHING

THE WEARY MOTHER.
The weary mother sat her down
And slowly sewed the buttons on
Oh, there were Gunsels in the town
That night to which she must
have gone.
And she wore her bonnet and night
gown,
But for a small boy peering near
She chose at home to sew in-
stead.
And then she washed his little
feet
And nicely pressed it for the
night.
The next door neighbor left her
house,
Her head held high, as if in
triumph
As if to say, "I go to dine,
Where all is brilliantly gay,
Where silverware and glass were

Where does Earl Carroll get hold of the stories he dramatizes? He is too young to have been around livery stables.

Vast scientific progress has been made. Wells are sunk to great depths, undreamed of even fifteen or twenty years ago. By cracking, hydrogenation and other processes, we are extracting constantly higher percentage of gasoline from crude. And according to the department of commerce, gasoline is one of the cheapest prod-

Epochal progress such as this has naturally brought its problems, one of which is wasteful overproduction. Intensive effort is being made to effect a sane solution that will balance supply and demand.

With Governor Moody on the stump in the interest of Ross Sterling and Jim Ferguson campaigning for Mrs. Ferguson interest in the gubernatorial race will reach fever heat by the time the

On the showdown, a crook is always shown up.

Two men were fined on complaint for being drunk on the court of Judge M. W. Horton and were sent to the county farm.

iere representing the Spirella Corset.

TWO GIRLS KILLED IN AUTO CRASH HERE SATURDAY EVENING

(Continued from Page 1)

will be held from the Corley-McMahon Funeral Home Monday afternoon at 5 o'clock with burial in Oakwood cemetery. The funeral will be conducted by Rev. T. C. Jensen, pastor of the Mildred Baptist church.

Surviving are her parents and two brothers, James Chilton, Dallas, and Blake Chilton, Jr., Luling. Mr. Chilton, father of the deceased, is an employee of the Humble Oil & Refining Company, and prior to moving to Luling recently, was a resident of Navarro county.

Active pallbearers for the funeral will be A. A. Klein, Bud Hersler, D. Adams, L. H. Johnson, H. C. Lawrence and T. H. Dolan.

Honorary Pallbearers—G. W. Westmoreland, C. M. Arnold, B. W. Hales, Jack Dodd, Russell Davis, C. E. Pope, C. C. Turner, J. P. Henderson, W. F. Sutton, J. B. Gilmore, G. I. Humphries, J. O. Burch, D. F. Needham, M. H. Henry, W. R. Brewer, Ray Russell, E. D. Blanton, C. F. Hostetter, Clester Bumpass, Elmer Crane, Ray Hilborn, R. S. Reid, Tom Doggett, J. P. Watson and J. R. Doggett.

Funeral services for Miss Griffin were held at the Corley-McMahon Funeral Home Monday morning at 10 o'clock. The services were conducted by Rev. J. Howard Williams, pastor of the First Baptist church. The body was forwarded to Jewett at 11:55 o'clock Monday morning via the B. & V. R. R. Company passenger train, where interment was made late Monday afternoon.

Surviving are her parents, four brothers, J. W. Griffin, Jr., Jewett, Davis Griffin and Frank Griffin, both of Corsicana, and Ruben Griffin of Eagle Pass; two sisters, Misses Mammie Ray and Ferroll Griffin, both of Corsicana.

Dawson Man Killed When Car Left Road

DAWSON, Texas, August 11.—(Sp.)—Curtis Lawrence, age 22, was instantly killed, and Dwight Hill, J. W. Keeton, and Velma Champion, were injured when the automobile in which they were riding left the road on Whiskey Hill between Axtell and Mt. Calm on the Corsicana-Waco highway about 12:30 Sunday morning.

The party was en route to Waco with Champion at the wheel when the accident occurred. Hill and Keeton were seriously injured. The dead and injured were brought back to Dawson. Lawrence was pinned beneath the car and badly crushed.

Funeral services for the crash victim were held Monday afternoon from the Cumberland Presbyterian church with the Rev. Matlock conducting the rites. He is survived by his parents, a brother and a sister.

Car Demolished

A car said to have been driven by Molly Echols, was said to have been driven by a negro, collided south of Mildred late Saturday night. The Echols car was demolished while the other was badly wrecked.

Deputy Sheriff J. M. Westbrook and Jack Floyd answered the call and investigated the affair. A complaint for the alleged driving of a car while intoxicated was filed against Echols, who was arrested. No one was injured.

Arm Is Fractured

R. H. Mayo sustained a fractured arm Saturday night when car in which he was riding went into a ditch and turned over, pinning his arm beneath.

Car Wrecked; Occupants Escaped. TEAGUE, Aug. 11.—(Sp.)—An almost new large sedan was wrecked on the concrete Teague-Mexia highway one mile north of Teague Saturday afternoon late. In the car were Sibert Huffstader, Fred Bass and Sam Keesee, all of Teague.

A phenomenal escape was made by the three occupants of the car when the driver lost control and the car capsized. Only scratches and bruises were sustained. The damage to the car is estimated at least \$300.

New Type Picture Coming to Ideal

No bunk—No sentimental twaddle—No humbug about Jazz and youth—No back stage floundering—No theme songs—but instead, "Men Without Women," the Fox movie-tone production directed by John Ford the Gold Medal director of 1929, "Men Without Women" starts at the deal Tuesday for a run of three days. Picture lists "Men Without Women" as one of the best twenty films of the year.

WILD ANIMALS IN FORESTS SUFFERING LESS FROM DROUGHT

WASHINGTON, Aug. 11.—(P)—Government scientists asserted today that of all the creatures of earth, not excepting man, the wild denizens of the forests probably are least vulnerable to danger and discomfort from the drought wave.

"The animals have no thermometers," said E. A. Preble, biologist of the biological survey. "They may pant a bit in the depths of dry forests, when the sun is overhead at noon but they do not get excited over anything short of actual lack of food or water."

However, Dr. W. Bell, director of biological investigation for the bureau, forecast a worse case of water and food for wild animals this year. Nesting birds, pitiable victims of forest fires, he said, probably were forced to escape because their young were already on the wing when the drought set in.

Fires in the great western woodlands have disturbed officials of the forestry service. Since January, this year, 1301 blazes have destroyed 487,000 acres of national forest east of the Rock mountains; while throughout 1929 in the same area there were only 456 fires which burned 12,415 acres.

Dr. Bell saw the possibility of harm from these fires, to deer, squirrels, rabbits, raccoons and skunks, and to ruffed grouse, doves and dozens of species of small winged creatures.

TO OPEN AIRPORT

An invitation has been received by the Corsicana chamber of commerce to be represented at the opening of the Hico, Texas, airport on August 27. The new port has been named "Blair Field."

CORPORATION COURT

Six charges of intoxication, one of affray, and three of parking automobile on a parkway appeared on the docket of the corporation court Monday morning after a comparatively dull week-end for the Corsicana police department.

SHADOW AL SMITH LOOMS PRIMARIES IN THREE STATES

(Continued From Page 1).

ate with the administration. The veteran senator carried to the voters a claim for vindication of his party bolt, asserting "events that have transpired have cleared me of criticism."

The Democratic primary in Nebraska offers a candidate who deserted the ranks of that party to support Hoover in 1928. This is Dr. Jennie M. Calles, opposed by former Senator Gilbert M. Hitchcock.

In Arkansas, Senator Joseph T. Robinson, the Democratic leader, has conducted a strenuous campaign against R. W. Campbell, Little Rock lawyer. Robinson has championed the cause of national prohibition in vigorous fashion in a manner that has led to general belief he sought to counteract any efforts of his having shared the national ticket with Smith.

Prohibition Issue Arkansas. Because of little opposition to Republican candidates interest in Ohio has centered on the Democratic senatorial contest in which prohibition has been the leading issue. Tariff, farm relief and private economic conditions have contributed to campaign topics.

Robert J. Bulkley of Cleveland, a former representative, advocates dry law repeal and George S. Myers of Cleveland favors modification. The other candidates in the Democratic senate race are W. W. Durbin, for many years leader of his party in the state; former Representative John McSweney of Woodstock and Charles V. Turner, once state director of agriculture.

No primary opposition faces Senator Roccoe C. McCulloch, the Republican incumbent, who is a dry.

Oklahoma Primary

OKLAHOMA CITY, Aug. 11.—(P)—Ending a whirlwind two weeks campaign of bitter personalities, Oklahoma's democrats, normally all-powerful, will go to the runoff primary polls tomorrow to nominate for governor and U. S. senator.

For their gubernatorial nominee, heretofore always elected, must choose between Frank Buttram, Oklahoma City oil millionaire, and colorful William Henry (Alfalfa Bill) Murray of Tishomingo, constitutional author just returned from an ill-fated Bolivian colonization attempt, who had a 65,000 vote plurality in the first primary July 29.

Charles J. Wrightsman of Tulsa also made wealthy by petroleum's favors, and blind Thomas P. Gore, for 13 years United States senator, will contest for the democratic senatorial nomination. They finished the first primary on virtually even terms. The winner faces a stiff general election contest against Senator W. B. Pine, republican and an independent field including J. C. (Jack) Walton, ousted as governor in 1923 when he ordered martial law to quell a Ku Klux Klan disturbance.

Democrats must nominate in 16 other offices, 11 of the state-wide, and republicans will vote for six major candidates.

SEVEN KILLED AND MANY INJURED OVER WEEK-END IN TEXAS

(Continued From Page 1).

rison, 23, of Plainview, J. B. Gillespie, 22, of Panhandle, Bill Holmes, 22, of Amarillo and James Kennon, 23, of Plainview, were injured when their automobile sideswiped another car Saturday night on the highway near Panhandle.

An unidentified young white woman was killed and three companions seriously injured when their roadster overturned at a railroad grade crossing in Houston, late Sunday. The injured were Miss Doris Bates, 21; Samuel Mann, 23, driver of the car, and Jimmy Melot, 24. All were unconscious, early today.

Four Killed In Oklahoma

SAYRE, Okla., Aug. 11.—(P)—Two girls and two boys lost their lives in a motor car accident on a river bridge near here last night.

The four were killed when their automobile rushed onto the bridge over the north fork of Red river and crashed into a parked auto, a moble in which two children were sitting.

The dead are Ralph Burkhalter, driver of the car; John Harman, Miss Grade Dees and Miss Winona Moreland. All resided on farms near here.

The children were slightly injured. Their father, Booker Wadell, had left the car on the bridge when motor trouble developed and had gone for help.

Dallas Couple Injured

AMARILLO, Aug. 11.—(P)—J. M. Young, Dallas engineer, and his wife, were in a local hospital today after receiving serious injuries in an automobile accident yesterday. Both of Young's legs were broken and Mrs. Young received a broken leg. The car went into a ditch after a tire blew out.

Crash Victim Unidentified

HOUSTON, Aug. 11.—(P)—A young woman killed about midnight in the crash of a small roadster which struck a railroad track and overturned still was unidentified today while three of her companions in the machine lay in hospitals in serious condition.

The injured were Dean Hayes, 23, Miss Doris Bates, 21, and Johnny Melot, 23. Hayes and Melot recovered consciousness at intervals and declared they did not know the young woman killed.

Meanwhile, Samuel Mann, about 25, was sought as the supposed driver of the roadster. He was reported to have rented the machine and after the accident, to have rented still another automobile. He had not been seen since he obtained the second automobile.

Hayes first was identified by his mother as Samuel Mann, who was killed when Hayes' sister and a brother identified him as their brother, and said: "I guess I've made a mistake."

Motorcycle officers said they had pursued the roadster last night before the wreck and had given a speeding ticket to the driver, "who said his name was Samuel Mann," for driving 43 miles an hour.

Nacogdoches Man Killed. NACOGDOCHES, Aug. 11.—(P)—Frank Sharp, 52, business man and financier of Nacogdoches, was killed in an automobile accident near here today.

STATEWIDE CUT IN OIL OUTPUT BE PUT IN EFFECT AUG. 25

AUSTIN, Aug. 11.—(P)—State-wide curtailment of oil production probably be put into effect Aug. 25, it was learned on reliable information.

Unless the commission abandons present plans, the order will be issued Wednesday or Thursday of this week, giving the intervening ten days to hearings on protests of individual fields.

The order will call for curtailment of production to below demand, and probably will be in the neighborhood of 100,000 barrels under present production, which is about 860,000 barrels daily.

All fields except the Laredo, Coastal and Big Lake Field in West Texas have agreed to curtailment.

identified today while three of her companions in the machine lay in hospitals in serious condition.

The injured were Dean Hayes, 23, Miss Doris Bates, 21, and Johnny Melot, 23. Hayes and Melot recovered consciousness at intervals and declared they did not know the young woman killed.

OUTWITTING YOUR NERVES

by Josephine A. Jackson, M.D.
The Famous
Writer and
Author on
Nerves

NEVER SAY DIE.

"You're a good sport, Doctor. You're a damned good sport! Never say die, say damn!" The words rang through the corridors of the hospital, rising in a shrill crescendo and ending in uproarious laughter. The nose and throat specialist coming in just then looked rather apologetic and explained to me: "We used nitrous oxide to take his tonsils out, and it is the effect of the gas you know, laughing gas. He is not conscious yet and does not know what he is saying."

But I was "in on the know" as the children say. The boy, who was under my care, had been definitely lacking in self-assurance, and inclined to take life's knocks too seriously. To free him from the handicap, I had made use of the choice little limerick: "Never say die, say damn! It may not be classic, it is profane. But we mortals have need of it. I'm and again."

You'll find you'll recover from Fate's hardest slam. If you never say die, say damn! The psychology back of the words had gained entrance to the boy's mind. He liked the angle of the rhyme, and he liked the implication, namely: It is the spirit with which you meet Fate's slams that leaves you flattened out or on top! No suggestion of profanity, but simply the idea of self-assertion, the back of the words, "The than 'Who cares?' or 'What's afraid!'" and seems to carry further.

The hospital incident served a good turn. It gave proof that the lesson had taken hold on the boy's subconscious, for of course the conscious mind was still out of commission from the anesthetic.

Drugs such as alcohol and all anesthetics exert their effect first and most deeply on those parts of the brain and nervous system which serve the conscious mind, and which in the process of evolution were acquired only as man became more human. The conscious mind, for example, is the main seat of the pain sense, and the pain sense is dulled by the anesthetic. Conscious fear, in like manner, is quieted. The sense of propriety and decorum, so recently

acquired, is the first to vanish. Then the subconscious has a chance to speak out its mind for the conscious censor is off the job. In his high school days this boy had been too submissive and suggestible. Now, at 20 he was falling to make a man of himself by necessary self-assertion. His conscious mind was taking the wrong cue from the social training we all receive. Then along came this little limerick which struck straight home to the heart of things, and loosed the innate quality of self-respect with which the boy was well endowed.

As a result of his dip into the new psychology, instead of being shrinking and timid, he is now sunny and free. Instead of being aware of himself, he is in love with life. Instead of being howled over by the "slings and arrows of outrageous fortune," his own arrows fly to the mark. And I can assure you he is not profane.

The little limerick illustrates another principle in psychology. It is this: Conduct must never be merely negative. It needs to be positive, in order to give useful self-expression. It is not enough to refrain from a feeling of hopelessness. One must go further and give expression to a vigorous sense of conquest. "Never say die, say damn."

MOODY SUGGESTS INCLUDING TEXAS DROUGHT SURVEY

WIRES PRESIDENT HOOVER THAT STATE IS HARD HIT; OFFERS INFORMATION

AUSTIN, Aug. 11.—(AP)—Governor Dan Moody today instructed his office here to wire President Hoover asking that drought conditions in Texas be considered in the event the federal government decides to act on behalf of farmers in drought stricken areas.

The telegram follows: "I note from press accounts that you are giving attention to the serious effect of the drought on livestock and farming in certain sections of the country. Permit me to suggest that drought conditions in Texas are such as to seriously injure our farming and livestock interests and to ask that in your conference you take into consideration these conditions in Texas and determine what, if anything, the United States government can do in the premises."

If you are inclined to include Texas among those states whose conditions you are studying, I shall be glad to assemble the necessary data regarding the situation in this state and communicate it to you by wire or otherwise."

CITY TIRE AND BICYCLE COMPANY REOPEN BUSINESS

The City Tire and Bicycle Co. have opened their temporary store in the building formerly occupied by the Beaton hotel dining room, where they will remain until their new building now under construction on West Fourth avenue, is completed. The new building to be occupied by this firm will be 22x80 feet with alley in the rear, with modern plate glass front and all modern conveniences.

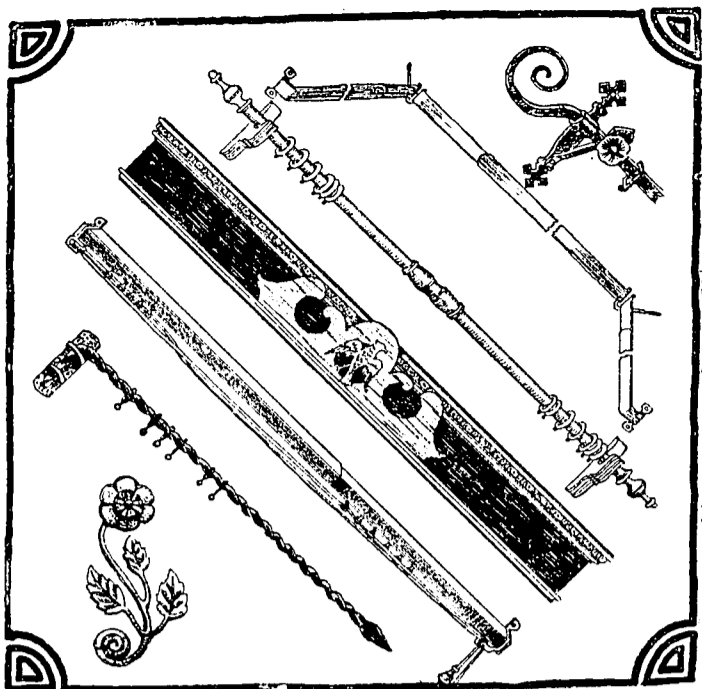

A new shipment of the latest Atwater-Kent radios has been received and this company will devote the major part of their activities to pushing the sale of this popular radio. Lawrence McCarter is president, and Grady Faulk is vice president and general manager of the City Tire and Bicycle Co. and during their several years in business in the city have enjoyed a growing business.

Several weeks ago this concern suffered an entire loss by fire that visited the building in which they were located.

No school article offered for sale by City Book Store until approved by Mr. Fillers, superintendent, or some of his associates.

Swanky "Period" Curtain Rods

By MARGERY TAYLOR
Interior Decoration Editor, McCall's Magazine. Written for the Daily Sun.

If, when your curtains go up next month you must try out a new idea or of your old curtains must go on new windows, you will have every help from the many ingenious new curtain rods and fixtures now in the stores.

Unlike their predecessors, the new designs seem to have real windows in mind.

Casement windows, on which shades are "impossible," demand draw curtains. But they needn't be discouraging—you can get extension rods, or rods cut to order, all ready with the necessary pulleys, rings and cords for you to hook on your curtains. There are hinged rods which swing in with the windows, and they may be had plain for glass curtains and in elaborate wrought iron cranes for over-drapes.

Bay windows no longer have to get along with apologies and makeshifts, because there are new rods with double socket, adjustable at any angle. Or you can have cornices with rolling sockets.

Arched top windows, too, are no longer hopeless, with the new curve-fitting rods with rings attached to which the drapes are easily hung with hooks.

With so many possibilities in the new fixtures one must be careful to choose the right rings for the right rod. There are long rings, with or without French pleat supports, for flat rods.

There are round rings with or without stays, as well as hooks, to use with draw cords.

Of course, wooden rings should not be seen to curtains but special pins with hooks to slip into the loops on the rings should be used.

Not only are the new fixtures practical, but they offer harmonizing designs with almost any style of furnishing you may have chosen. There are decorative metal rods for the Spanish or English houses with rough plaster walls. Wooden rods are in the Colonial

spirit and "go" with either plaster or papered walls.

"Fresh air fiends" need no longer be scolded about curtains. They can get a simple device which screws into the casement, with an arm to hold back the curtains and drapes at night.

Creager Laughs at Diplomatic Report

BROWNSVILLE, Aug. 11.—(AP)—R. E. Creager, national republican committeeman for Texas, said he planned to live in the United States "for quite a while," after his return today from Mexico City where he conferred with Dwight Morrow, United States ambassador to that country.

He laughed when asked about the report that he might succeed Ambassador Morrow when the diplomat leaves his post. Creager was present at the meeting of the state republican executive committee today.

PARENTS RECEIVE SERVICE CROSSES FOR SOLDIER SONS

Mr. and Mrs. J. S. Harlee have received the Cross of Military service for their two sons, Roy Harlee of Pampa and Marion Harlee, and another son who also was in the world war, Wallace Harlee, has received his cross at his home in Coleman.

The trio were soldiers during the world war and the decorations are in commemoration of their services in the war and also as worthy descendants of General W. W. Harlee of the Third Pee Dee Legion, South Carolina, their grandfather. The crosses have the dates of 'the Confederate and World Wars, and Mrs. Harlee states that she will not send the decorations to her sons, but will pin the crosses on her sons herself.

The decorations were secured through the officials of the United Daughters of the Confederacy and the papers are signed by Elizabeth B. Barkinsley, president-general, and Betty Dancy Goodwin, custodian of crosses.

The decorations were secured through the services of the local United Daughters of the Confederacy.

Bank President Is Found Dead Monday

GARY, Ind., Aug. 11.—(AP)—The American State Bank of Gary, was closed by its directors today after the body of its president, Albert De Fries, 42, was found in his home. Authorities believed his death by gas was a suicide.

The directors decided to close pending an audit by Thomas Gary, chief of state bank examiners. Barr said he believed the bank was in satisfactory condition with the possible exception of its cash on hand.

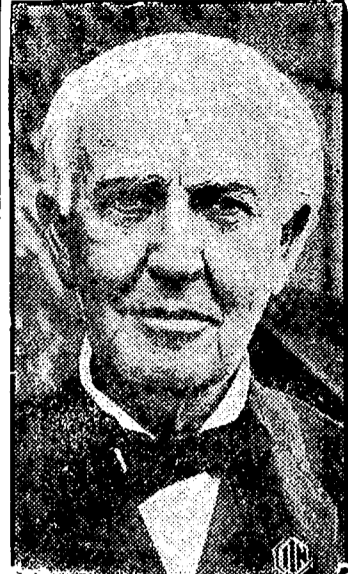

The American State Bank had total resources of \$886,000 on July first.

Pioneer Cattleman Dies at Galveston Sunday Afternoon

FORT WORTH, Aug. 11.—(AP)—Andrew Jackson Long, 81, retired capitalist and cattleman of Fort Worth, died yesterday at a hotel in Galveston, while on a vacation.

Long was a native Texan to whom Indian fighting, dugout dwelling and prairie schooners were more than literature. His father was a soldier under General Sam Houston during Texas' war for independence from Mexico. He made many drives over the old trails from Texas to Kan-

Boys Try Quiz Edison But Inventor Ducks

Thomas A. Edison, leading proponent of questions, had a boomerang questionnaire tossed at him—and ducked. Forty-nine boys, who submitted to the inventor's latest test and who had drawn up the questions to beat the aged inventor to the punch, were disappointed.

Edison and amassed a fortune in the cattle business, living for a number of years at Sweetwater and at Coleman. He moved to Fort Worth in 1899 and retired entirely from the cattle business in 1910.

CHICAGOAN TAKES LIFE AFTER FAILS KILL FOUR OTHERS

OLD MONROE, Mo., Aug. 11.—(AP)—His efforts to effect a reconciliation with his wife unsuccessful, Frank Giovannelli, 40, of Chicago, yesterday shot his wife, her sister and her parents, set the parents' home on fire and ended his own life a short time later when called upon by a deputy sheriff to surrender.

The shooting occurred in the home of Mrs. Giovannelli's parents, Mr. and Mrs. W. F. Weber, here. The wounded, in addition to Mrs. Giovannelli and Mr. and Mrs. Weber, was Mrs. Mary Powers, Toledo, Ohio. All the wounded were taken to a hospital at St. Charles. The condition of Mrs. Giovannelli and Weber was described as serious.

Persons attracted to the Weber home extinguished the fire after Giovannelli had fled. Deputy Sheriff Hammer encountered Giovannelli a few minutes later and called to him to surrender, where upon Giovannelli raised his revolver and sent a bullet into his head.

MARSHALL SAVES MEXICAN
PALMER LAKE, Colo., Aug. 11.—(AP)—The village marshal saved Eugene Condova, Mexican, from an angry mob of motorists last night. When rescued he was being roughly handled by a group of drivers who said he had figured in an automobile accident resulting in injuries to eight persons.

Landslide Stops Railroad Traffic

TEPEC, Mexico, Aug. 11.—(AP)—A landslide caused by recent heavy rains has choked tunnel 19 on the Southern Pacific railroad, eight miles southeast of here, stopping all traffic.

Two passenger trains met, on each side of the obstruction, and exchanged passengers, who were forced to crawl through a heavy opening over the rocks and mud. Several days will be required to clear the debris.

forced to crawl through a heavy opening over the rocks and mud. Several days will be required to clear the debris.
